MR. LOGAN'S PROPOSITION FOR THE REMOVAL OF THE NATIONAL CAZEARIES.

Mr. LOGAN moved to suspend the rules to enable him to offer the following preamble and resolutions:

"Whereas it appears that a district general court at the city of Washington, which is adverse to the authority of the Congress of the United States; and that a large portion of the citizens residing near said courts are daily subjected to annoyance and danger from persons who assemble thereat as defendants and witnesses against those charged with crime; and whereas it is expedient to protect the people assembled to make laws for the government of the nation, and whereas a great portion of the business transacted in connection with the regulation of law and in defence of the authority of Congress at the city of Washington is thereby interrupted; therefore,"

The speaker's authorities being prevented last night by consultation, he was unable to present his proposed amendments until today morning.

It is resolved, That a committee of five members be appointed by the Speaker to inquire into the propriety and expediency of removing all such district general courts from said city of Washington to a point near the geographical center of the Nation where no military force is authorized at any time to report by bill or otherwise.

Mr. BOYER, (dem.) of Pa., said he objected to the introduction of the resolution as a gross slander on the Government.

The SPEAKER reminded Mr. Boyer that the motion was to suspend the rules in order that the resolution might be offered.

Mr. ELDRIDGE, (dem.) of Wis.—I desire to say that the SPEAKER, interrupting debate is not in order.

Mr. ELDRIDGE—I wanted to say that the resolution is a foul slander upon the white citizens of Washington.

Mr. BOYER—It is utterly without foundation and truth.

QUARANTINE REGULATIONS OF DENMARK.

Collector Smythe has received a copy of the following letter from the United States Consul at Elsinore in relation to the quarantine regulations of Denmark:—

UNITED STATES OF AMERICA,
ELSINORE, MAY 18, 1868.

Hon. F. W. SEWARD, Assistant Secretary of State, Washington:—

I have the honor to inform you that a law has just been published here regulating the landing of Asiatic cholera patients from vessels. It provides:—

1. That vessels arriving from ports of call in Asiatic cholera are prohibited to land any persons (passengers or crew) until the vessel has been visited by the physician of the port. This is also the case with vessels arriving from the vessel cleared on the voyage they have had cholera patients or dead bodies of such on board.

2. That vessels arriving in the roads and before entering harbor have to hoist the quarantine flag, or, in default thereof, a white flag on the mainmast.

3. If on the examination of the physician it is found that the vessel has exposed on the voyage had suspected cases of sickness (sick or dead) on board, or that there may be fear of introducing the contagion, the quarantine officers, officers or health police are authorized to adopt precautionary measures with regard to the sick or dead, and their bringing away from the vessel, and to have the vessel cleaned, before any of the persons on board are permitted to land.

4. In Copenhagen and the seaports steps are to be taken to provide proper places where cholera patients can be received.

5. The physician's fee for examining a vessel, as provided in section one, is for a vessel of sixty tons, two rix dollars; one hundred tons, three rix dollars; vessels over one thousand tons, five rix dollars. The fee of the physician, and his transportation to and from the vessel, and his expenses on landing and the nursing of the patients, as also the expense of cleaning the vessel, to be borne by the same. Security is to be given for the expenses before any persons are permitted to be landed.

6. If regulations of the regulations in sections one and two, or other orders as the quarantine Commissioners or health police may require, accordance with section three, are punished by a fine of one hundred rix dollars.

Section seven authorizes the Minister of Justice to enforce this law against other dangerous contagious diseases than that mentioned in section one.

I have the honor to be, &c.

GEORGE P. HANSEN,
United States Consul.

CHIEF JUSTICE CHASE

Will Accept the Democratic Nomination
and Carry Out Democratic Principles—Conservative Republicans Coming to His Support.

RICHMOND, Va., June 15, 1868.

A report has been current here for a day or two that Chief Justice Chase would in a letter positively decline a nomination by the democratic party prior to the Convention of the Fourth of July in New York. I am authorized to state that such is not the case. If the democracy shall adopt a platform in accordance with the well known principles of Mr. Chase he will serve, with the purpose of proclaiming general amnesty, restoring peace, abolishing military rule and establishing the finances of the country on a firm basis.

Mr. Chase is now in receipt of communications from the leading republicans of the East, West and North, assuring him that if he receives the democratic nomination on a platform embodying universal suffrage, they will heartily co-operate in his election.

Numerous have been these that there is every evidence of the widest disaffection towards the weak and pusillite platform adopted at Chicago by the radicals. The people here having no voice now are determined to support the New York nominee at any and all hazards.

Chief Justice Chase, in company with General Henry A. Wise, visited the African church yesterday during divine service.

AMUSEMENTS.

CONCERT TO MISS JENNY LANDSMAN.—

Irving Hall has a little more than half filled last evening with personal friends and admirers of Miss Jenny Landsman, who made up in enthusiasm what was lacking in numbers. The affair was announced on Monday afternoon, and complimented to Miss Landsman previous to her departure for Europe; but from one cause or another it came well proving a success—a triumph. The programme informed available, in large type, that "favorite artists" had kindly volunteered their assistance, and a pleasant surprise to these "favorite artists" failed to put in appearance, and another, after descending to comfort the audience with a sample of his vocal powers, being thus greeted by the program as singing a *duetto* from "La Favorita" with Miss Landsman, which was to have formed the grand finale to the eventful evening. The programme, however, those present were favored with some excellent singing by Miss Landsman, who, after repeated *encores*, departed from the regular order laid down in the programme and sang with good effect the former ballad of "Coming Through the Rye," which elicited the hearty applause. After waiting a reasonable time for promised *encore*, some impetuous began to manifest themselves among the audience, and Miss Landsman, as obliged to come forward and offer her apologies for being thus interrupted. The programme, meantime, which apologizes the good natured audience received graciously and then took their departure from the hall.

GIRLISH ENTERTAINMENT.—

Our fellow-citizens of Irish birth and sympathies are expected to vote to-night in immense force at an entertainment given by Mrs. O'Donovan Rossa in Cooper Institute, where the eloquence of James T. Brady, dramatic readings from the Irish and American poems by Mrs. O'Donovan Rossa, and other features, combined with a program of patriotic character and songs by several professional concert singers will be the order of the evening. The lady for whose benefit the entertainment is given is a very young, beautiful and talented, a volume of her poems, recently published simultaneously in this city and England, having been received by competent judges with great favor and giving high promise for the future. Her husband, O'Donovan Rossa, it will be remembered, was editor of the "Punch" and "Fraser's Magazine," and died a sentence of penal servitude for life in one of England's bastilles for having loved his country too well, and for opposing the English domination over the "green Isle of the sea." His young and heroic wife takes this means of collecting funds in order to retain counsel and assist in his escape to the higher Courts of England, where, it is her hope, that the lawless decisions and sentence of Judge Keogh and his associates may be reversed. It is believed that the noble object may be accomplished, and we have every reason to believe that the entertainment will be a success in every way.
